

MERISIS™ Ortho PRP KIT

One Step Gel Separation Technology

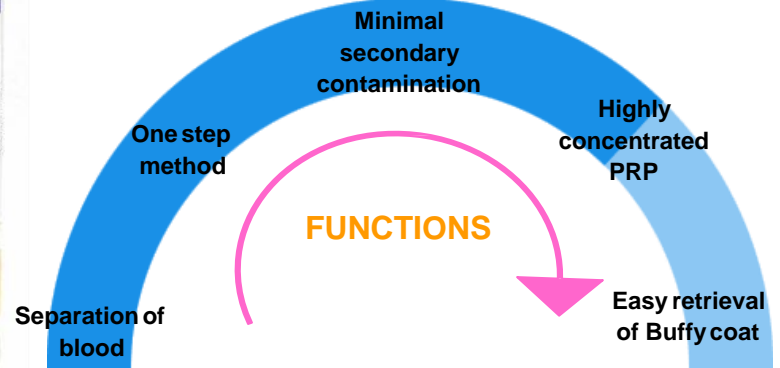

PRP- Platelet Rich Plasma

PRP, or Platelet Rich Plasma, is a biological substance made from peripheral blood to trigger healing and regeneration. Platelet Rich Plasma Therapy is a relatively simple, non-surgical treatment for osteoarthritis, Reducing knee sprains, Healing broken bones. It merges cutting-edge technology with the body's natural ability to heal itself. Platelets contain packets of growth hormones and cytokines that trigger tissues repair, regeneration and enhance healing. When PRP is injected into the damaged area, it activates a mild inflammatory response, which triggers the healing cascade.

Kit Contents:

- 1.13 ml tube with gel separator, blood loading capacity 10 ml
- 1ml activator of PRP

MERISIS™ Ortho PRP Product Competitiveness

- Compatible with most common clinical centrifuges
- Easy separation due to the single tube use
- Supplied with specific PRP activators
- Highly concentrated PRP 2 to 4x extraction by centrifugation
- Elimination of contamination, by adapting the enclosed system
- Easy identification of the Buffy coat layer by naked eye
- Gel separator minimizes RBC cotamination
- High count of number of platelets recovered

BENEFITS OF PRP THERAPY

- ★ Treat osteoarthritis .
- ★ Effective in chronic tendon injuries.
- ★ Reduces knee sprains.
- ★ Treat tennis elbow.
- ★ Heals broken bones.
